OUG Harmony Conference 2011

19-20. May 2011

Paasitorni house, Helsinki Finland

Oracle User Group Finland

Oracle User Group Estonia

Oracle User Group Latvia

Oracle User Group Russia

Thursday 19. May 2011

8:30 - 9:00	Registration and breakfast			
9:00 - 9:30	Welcome speech. Heli Helskyaho OUGF, Meelis Kerbo OUGE, Andrejs Vorobjovs LVOUG and Andrey Kriushin RuOUG. Short presentation on history of the Paasitorni house, a candidate for UNESCO world heritage site.			
9:30 - 10:30	Keynote **Tom Kyte:** Things you "know" Juhlasali			
10:30 - 11:00	coffee break			
	Track 1: Tech & DBA, Juhlasali	Track 2: Tech & Dev, Juho Rissanen	Track 3: Dev & Apps, Karl Lindahl	Track 4: MySQL & Dev, Tarja Halonen
11:00 - 12:00	**Dan Morgan** Oracle In-Depth Database Security	**Kuassi Mensah** What the Database Can Tell you about your Application Performance	**Joonas Lehtinen** Vaadin - Rich Web Applications in Java without Plug-ins or JavaScript	**Ronald Bradford** The MySQL EXPLAIN QEP is significantly different from an Oracle QEP. Oracle DBAs need to understand the MySQL tuning
12:00 - 13:00	lunch			
13:00 - 14:00	**Francisco Munoz Alvarez** Making Magic with Oracle - several powerful functionalities that we have available when using Data Pump	**Juris Troshins** Oracle Database Security: Identify and Prevent Possible Data Leaks	**Grant Ronald** Forms to Java and Oracle ADF - Why? How? and what skills do you need?	**Dimitri Kravtchuk** MySQL/InnoDB configuration tuning. Which setting for which workload? Better values for my system?
14:00 - 14:15	break			
14:15 - 15:15	**Tom Kyte** SQL Techniques	**Graham Wood** Exadata live! Been out for over 2 years now. We will look at the technology and why it has been so successful.	**Shay Shmeltzer** Accelerated Java EE Application Development - The Oracle Way	**Kenny Gryp** XtraBackup, an open-source online backup solution for InnoDB/XtraDB databases. www.percona.com
15:15 - 15:30	Track 1 continues in **Room 301**	break		
15:30 - 16:30	**Peter Robson** CTRL-Z in SQL*Plus - Infinite Rollback!	**Francisco Munoz Alvarez** 11g New Functionalities for DBA's. About Compression, Concurrent Statistics, Edition Base Redefinition and some	**Maris Elsins** Inside Concurrent Managers	**Linas Virbalas** Zero-Downtime Maintenance and Upgrade for MySQL with Tungsten
16:30 - 16:45	coffee break			
16:45 - 17:45	**Joze Senegacnik** Improve The Performance of SQLs by Using Constraints	**Karlis Vitols** 1) Implement BI in 1-2 weeks. 2) Convert profit/loss A4 printot to KPI based performance management!	**Vjay Ramaiah** Best Practices for More Efficient and Cost Effective Application Upgrades	**Espen Braekken** Preventing downtime in production MySQL **Istvan Podor** Recovery for MySQL
17:45 - 18:00	break			
18:00 - 19:00	**Ruben Gaspar Aparicio** 1) How to automatically test and validate database backups and recovery strategy. 2) Easily install oracle drivers & binaries: building a powered Windows Instant client 11gR2.	**Randolf Geist** Advanced Oracle Troubleshooting - Live Session	**Kuassi Mensah** Efficient and Reliable Java Persistence through JDBC and UCP	**Tom Spitz** Next Generation Implementation Approach - the Oracle® Unified Method (OUM)
19:00 -	Closing the day 1 and **Event Dinner** in Juhlasali			

OUGF Partners

Friday 20. May 2011

8:30 - 9:00	breakfast			
9:00 - 10:30	Keynote **Chris Date:** What is a Relational Database? Shedding Some Light. Juhlasali			
10:30 - 11:00	break			
	Track 1: Tech & DBA, Juhlasali	Track 2: Tech & Dev, Juho Rissanen	Track 3: Dev & Apps, Karl Lindahl	Track 4: MySQL & Dev, Tarja Halonen
11:00 - 12:00	**Chris Date** Go Faster! The TransRelational Approach, An Introduction	**Vijay Ramaiah** Data Privacy - Securing Your Application Data	**Grant Ronald** How to skin an ADF Application	**Patrick Hurley** MySQL: the least an Oracle DBA needs to know
12:00 - 13:00	lunch			
13:00 - 14:00	**Francisco Munoz Alvarez** Tips and Best Practices for DBAs	**Debra Lilley** What are Fusion Applications? How are they built, what technology is used, and what will supporting this be like?	**Grant Ronald** The Quick Start Guide to Fusion Development with Oracle JDeveloper and Oracle ADF.	**Kenny Gryp** Toolkits for MySQL Users: Aspersa & Maatkit
14:00 - 14:15	break			
14:15 - 15:15	**Dan Morgan** My Favorite Built-in Packages ... that no one has heard of before.	**Graham Wood** DB Time based performance analysis	**Shay Shmeltzer** Adding Mobile and Web 2.0 UIs to Existing Applications - The Fusion Way	**Damjan Ziberna** Central auditing, no application modifications **Ronald Bradford** Understanding MySQL Indexes
15:15 - 15:35	coffee break			
15:35 - 16:05	**Evgeny Gorbokonenko** 1st Experience with Exadata	**Alexey Sergeyev & Oleg Korotkov** Building distributed HA system on Amazon Cloud	**Debra Lilley** 42 Real Life Examples of Fusion Middleware with Apps	**Dimitri Kravtchuk** Monitoring and Analyzing MySQL/Oracle Performance with dim_STAT
16:05 - 16:20	Closing the event. Heli Helskyaho OUGF, Meelis Kerbo OUGE, Andrejs Vorobjovs LVOUG and Andrey Kriushin RuOUG. Juhlasali			

Sponsor Track on Thursday 19.5.2011, Room 301

11:00 - 12:00 **Ugo Pollio**, Oracle: Beyond ETL with ODI Breakout
13:00 - 14:00 **Rolf Linder**, Oracle: Enterprise Data Warehouse
14:15 - 15:15 IBM, TBD

Conference sponsors
