09.20	Julkistus Suomenkielinen DBA-kirja.
09.30-10.30	Keynote: **Marise Lehto**, Marise Lehto Associates Oy**:** More than words: intercultural competencies in international teams In this keynote speech, the speaker will discuss the importance of moving beyond the narrow borders of linguistic competence and into exploring the wider concepts of interpersonal competence. In particular, she will explore specific strategies and offer insights which can support development of our interpersonal and communication skills. Drawing on her own learning and teaching experience, she will also make a strong case for 'self assessment' and explain why it is an important part of any competence building program that we embark on. She will also consider the central role that learning by doing plays in this process and give practical examples to the audience on how it provides a strong foundation and positive environment in which our business relationships – with native and non-native colleagues and clients alike – can flourish and prosper.
10.30-	Break
10.45-11.45	**Jonathan Lewis**, JL Computer Consultancy**:** Beginner's Guide to Becoming an Expert In this slide-free presentation Jonathan Lewis will discuss and demonstrate what it takes to become an expert in areas relating to Oracle performance.
