

### **Why should You participate in the OUGF Harmony event?**

The OUGF Harmony event gathers some of the world's best Oracle experts to share their knowledge and experience for all participants. This event is an excellent combination of efficient and well-targeted lessons, and a good possibility for networking, familiarize you with other experts and even affect Oracle products' R&D.

The format and size of this conference enables efficient learning, discussing your own experiences and challenges, and the always important professional networking with the participants.

Lessons are compact and full of "real things", targeted for experts. Therefore these benefit you and your organization a lot. Lesson selection includes some really technical and focused cases, real-life examples, views that are common to all participants and even round table -style, free discussion with the experts.

The lesson subjects are new or very up-to-date. Usually, you can't even find the same stuff, as well presented as here, anywhere else. Subjects deal with the same products and tools that we use in our daily work.

You have the opportunity to choose from several lesson tracks, depending on your own expertise and areas of interest.

Compared to the program and all these benefits, the price of this event is very reasonable.

### **OUGF Harmony conference in a nutshell:**

- Word's best experts with a reasonable price
- Focused and compact lessons
- Decent amount of choice, according to your own expertise and area of interest (parallel lesson tracks)
- The experts include both people working in the Oracle products' R&D and professionals using the same products in different companies
- Really practical case studies
- Excellent opportunity to talk about your own experiences/challenges and get some good answers or ideas
- Limited number of participants = better chances for networking
- Casual and relaxed atmosphere
